

MANAGEMENT REPORT OF FUND PERFORMANCE
FIERA CANADIAN DIVIDEND REGISTERED FUND
(FORMERLY NATIXIS CANADIAN DIVIDEND REGISTERED FUND)

For the period ended June 30, 2019

This interim management report of fund performance contains financial highlights, but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling us toll free at 1-866-378-7119, by writing to us at Fiera Investments LP (the "Manager"), 145 King Street West, Suite 1500, Toronto, ON., M5H 1J8, or by visiting our website at im.natixis.ca or SEDAR at www.sedar.com. Securityholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and conditions. Forward-looking statements are statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "plans", "believes", "estimates" or negative versions thereof and similar expressions. In addition, any statement that may be concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, capital markets, business competition, technological changes, changes in government regulations, unexpected judicial or regulatory proceedings and catastrophic events.

We stress that the above-mentioned list is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise.

Management Discussion of Fund Performance

The Fiera Canadian Dividend Registered Fund (the "Fund") will seek to achieve the investment objective through the investment of substantially all of its portfolio assets in the non-publicly offered debt and shares of the Inter-Fund of the Fiera Canadian Dividend Class (the "Tax Class Fund"). Accordingly, the Management Discussion of Fund Performance that follows represents generally that of the Tax Class Fund with the exception of the sections titled Investment Objectives and Strategies, Risk, Financial Highlights, Management Fees and Series Description and Past Performance which are specific to the Fund. Within the section titled Results of Operations, the net asset value and performance figures discussed also relate specifically to the Fund. For information specific to the Tax Class Fund please refer to the Management Report of Fund Performance of the Tax Class Fund.

Investment Objective and Strategies

The investment objective of the Tax Class Fund is to provide a combination of current cash flow and long-term capital growth primarily through investment in a diversified portfolio of Canadian equity securities.

Effective March 6, 2017 the Tax Class Fund appointed Cidel Asset Management Inc. ("Cidel") as the Sub Advisor of the Tax Class Fund.

In respect of the Tax Class Fund, Cidel follows a core value/income investment style for this Fund. Cidel's stock selection process consists of quantitative screening, fundamental company, economic and market analysis. The Tax Class Fund seeks out primarily dividend paying Canadian companies with consideration given to company fundamentals in areas which typically include valuation, balance sheet strength, future earnings prospects, earnings volatility, dividend yield and/or dividend growth potential. Portfolio turnover is expected to be moderate to high, which may result in increased transaction expenses and the realization of capital gains.

The Tax Class Fund may invest up to 50% of the cost of its net assets in foreign securities. The Tax Class Fund may also use derivatives for hedging and non-hedging purposes and may engage in short selling. The Tax Class Fund may engage in securities lending, repurchase and reverse repurchase transactions to earn additional income for the Tax Class Fund.

Risk

No changes affecting the overall level of risk associated with investing in the Fund were made during the period. The risks of this Fund remain as discussed in the Fund's most recent simplified prospectus, annual information form or any amendments and fund facts.

Results of Operations

The Fund's net asset value (rounded to the nearest thousand) decreased during the period from \$3,905,000 to \$3,510,000. This decrease was the result of net redemptions offset by positive return on investments.

The Series A of the Fund returned 10.2% compared to a 16.2% return on its benchmark, the S&P/TSX Composite Total Return Index (the "Benchmark"), from which fees and expenses are not deducted. See the section titled "Past Performance" for a detailed summary of the performance of the Fund.

Fund performance drivers

Not surprisingly, our low volatility strategy of investing in quality, dividend-paying companies continues to struggle to keep up with the very strong equity markets year-to-date.

During the first quarter, the fund's three best performers were **Toromont**, **TransCanada**, and **Thomson Reuters** returning 26.3%, 24.7%, and 20.7% respectively. Three holdings, **SNC-Lavalin**, **NFI Group**, and **Medtronic** had negative returns of -25.3%, -2.5%, and -1.5% respectively. From a dividend growth perspective, six companies held in the portfolio increased their dividends during the first quarter of 2019.

During the second quarter, the Fund's best performers were CAE and CCL Industries, both up over 19%. NFI Group also had a strong second quarter, rising 14%. Saputo and Richelieu Hardware had a weak quarter, down 13.5% and 12.5% respectively. From a dividend growth perspective, 12 companies increased their dividend during the second quarter of 2019.

During the first quarter, two names were added to the portfolio, **Restaurant Brands International** and **Enghouse Systems**. Restaurant Brands International is a quick-service restaurant company that owns three prominent brands – Tim Hortons, Burger King and Popeye's Louisiana Kitchen. Enghouse Systems is an enterprise software company that acquires and manages software solutions for several market verticals. We eliminated two companies, **SNC-Lavalin Group** and **Cineplex**.

MANAGEMENT REPORT OF FUND PERFORMANCE
FIERA CANADIAN DIVIDEND REGISTERED FUND
(FORMERLY NATIXIS CANADIAN DIVIDEND REGISTERED FUND)

For the period ended June 30, 2019

During the second quarter, one company was added to the portfolio. Stantec Inc. is a global engineering firm with a diversified business portfolio including infrastructure, buildings, energy & resources and environmental services. Vermillion Energy and Richelieu Hardware were eliminated from the portfolio.

As per our investment approach, we remain focused on strong cash flow generators that will continue to grow their dividend.

Recent Developments

Recent Canadian economic data has been encouraging and has outpaced other developed countries. At the same time, global economic data still points towards slower growth. The fog of trade war further clouds the economic outlook, together with the persistence of predictably unpredictable politics. Despite declining economic fundamentals, equity markets have optimistically continued their march upward, though global business confidence has been adversely impacted.

Consequently, we remain confident that our unwavering focus on investing in quality, dividend growing companies is correct. The portfolio is well-positioned to withstand economic risks and the associated market volatility.

Change of Securities Offerings

Effective June 5, 2018, the securities of Series HF, and Deferred Load and Low Load purchase options of the units of Series A are no longer available for purchase.

Effective October 1, 2018, the securities of Series H are no longer available for purchase.

Investors may continue to own these securities, redeem their investment, or switch their investment to securities of the Fund or another Fiera Fund that is available for purchase and for which they qualify. Investors may also switch their Deferred Load and Low Load purchase option securities for other Deferred Load and Low Load purchase option securities, respectively.

Related Party Transactions

The Manager provides investment management, distribution and administrative services to the Fund. These services are provided in the normal course of operations and are recorded at the amount of consideration agreed to by the Manager and the Fund. National Instrument 81-107 requires the Fund, to establish an independent review committee ("IRC") to whom the Fund must refer all conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintain records in respect of these matters, and provide assistance to the IRC in carrying out its functions.

Management Fees

In consideration for the investment advisory services provided, the Manager receives a monthly management fee based on the daily average net assets of each series of the Fund, other than Series I. From its management fees, the Manager pays the cost of portfolio manager compensation, and sales and trailing commissions to dealers who distribute securities of the Fund. In consideration for other administrative services provided, the Manager may also charge an administrative fee to the Funds.

From time to time, the Manager may reduce the effective management fee payable by some unitholders by reducing the management fee it charges to the Fund, directing the Fund to make management fee distributions to these unitholders, or by rebating these fees back to the Fund in amounts equal to the management fee reduction. Management fee distributions are automatically reinvested in additional units of the Fund and are accounted for as distributions for financial statement purposes.

Fund Operating Expenses

Each Fund is responsible for the payment of all operating expenses including, but not limited to, taxes, accounting fees, legal fees, audit fees, trustee fees, IRC fees, custodial fees, administrative costs, investor servicing costs, broker commissions, interest and bank charges, and costs of reports and prospectuses. In consideration for other administrative services provided, the Manager may also charge an administrative fee to the Funds. The Manager allocates to the Fund certain overhead costs which are directly related to the operation of the Fund (excluding marketing and sales). Those overhead costs would include a portion of the Manager's IT computer software, systems and staff salaries, facilities, insurance (property and liability only), depreciation on fixed assets, data and telephone, printing, office and other general administrative costs.

Operating expenses are attributed to a Fund, or a Fund's series. Common operating expenses of the Funds may be allocated among each fund based on the average number of securityholders or the average daily net asset value of that fund, or other methods of allocation that the Manager deems appropriate, depending on the type of operating expenses being allocated.

Expenses Absorbed

The Manager may waive or absorb a portion of the management fees or operating expenses for certain funds. The decision to absorb these expenses is reviewed periodically and determined at the discretion of the Manager, without notice to unitholders.

The related party fees charged are as follows:

	June 30, 2019	June 30, 2018
Management fees	37,561	49,300
Administrative services provided by the Manager	6,882	7,387
Fund expenses absorbed by the Manager	(26,113)	(30,354)

MANAGEMENT REPORT OF FUND PERFORMANCE

(FORMERLY NATIXIS CANADIAN DIVIDEND REGISTERED FUND)

For the period ended June 30, 2019

Other Information

Change of control of the Manager

On July 3, 2019 Fiera Capital Corporation acquired all of the outstanding common shares of Natixis Investment Managers Canada Corp., the parent of the Manager, thereby resulting in an indirect change of control of the Manager. Subsequent to the change of control, the following name changes occurred:

Previous Name	New Name
Natixis Investment Managers Canada Corp.	Fiera Investments Corp.
Natixis Investment Managers Canada Limited	Fiera Investments Limited
Natixis Investment Managers Canada LP	Fiera Investments LP

Management Fees and Series Description

The Fund currently offers three series of units: Series A, Series F, and Series I. The following securities are no longer available for purchase: Deferred Load and Low Load purchase options of Series A, Series H, Series HF, Series U, Regular Front End Load, Deferred Load and Low Load.

Management fees differ among the Fund's series of units. The Fund pays the Manager an aggregate management fee. Management fees for the Series I units are negotiated and paid directly by the investor, not by the Fund. From its management fees, the Manager pays the costs of portfolio manager compensation, and sales and trailing commissions to dealers who distribute securities of the Fund.

Series	As a Percentage of Management Fees		
	Management Fee (%)	Dealer Compensation (%)	General Administration, Investment Advice and Profit (%)
Series A	2.00	42	58
Series F	0.80	0	100
Series H	1.75	57	43
Series HF	0.75	0	100
Series U	1.50	50	50

For Series I Units, separate Series I fees are negotiated and paid by each Series I investor. The combined management, administrative and any service fees charged for Series I Units will not exceed the management fee charged for Series F Units.

Past Performance

The past performance shows historical performance of each series of units of the Fund. This information is provided to show the past performance only and does not necessarily indicate how the Fund will perform in the future. The past performance information assumes that all distributions were reinvested in additional units of the same series of the Fund. The past performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

On November 30, 2012, NexGen Canadian Large Cap Registered Fund, after obtaining all necessary approvals, was merged into the Fund.

On June 5, 2015, NexGen North American Large Cap Registered Fund, after obtaining all necessary approvals, was merged into the Fund.

On March 21, 2017, Cidel was appointed as the sub-advisor the Fund.

Effective June 4, 2018, the annual management fee of Series F was lowered by 20 basis points, respectively.

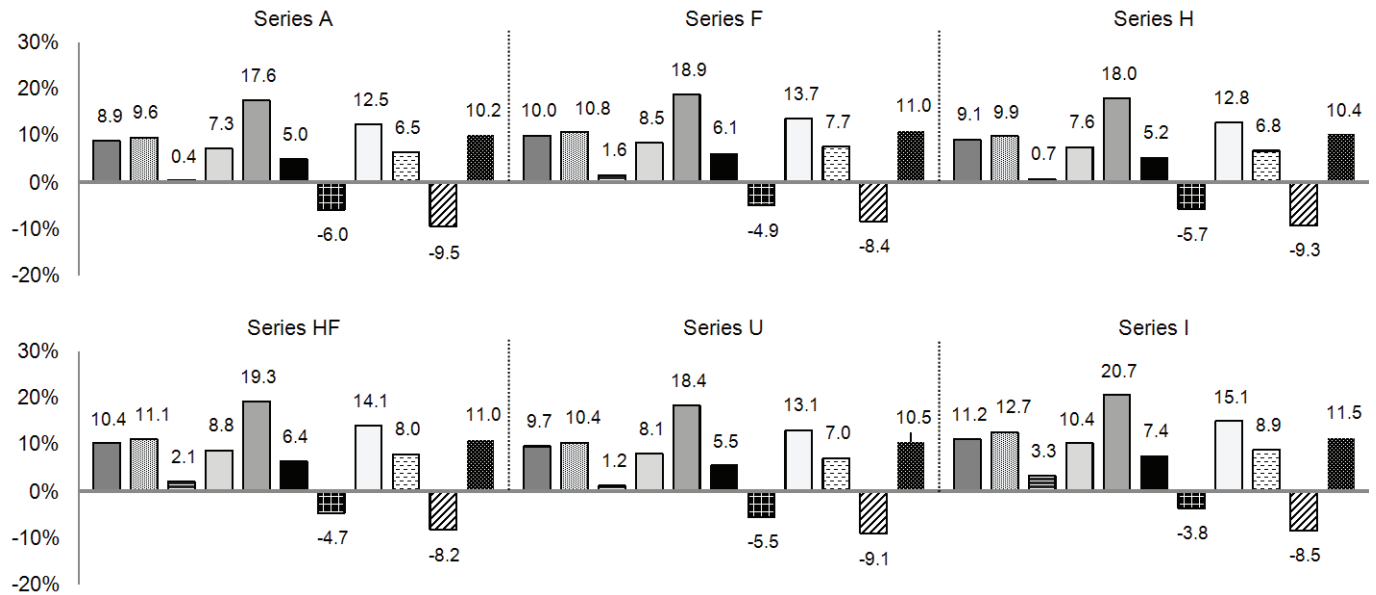

These changes could have affected the performance of the Fund had they been in effect throughout the performance measurement periods presented.

Financial Highlights

* Financial highlight information is derived from financial statements prepared in compliance with International Financial Reporting Standards ("IFRS"). All other calculations for the purposes of this MRFP are made using Net Asset Value. As at June 30, 2019 there was no significant difference between "Net Assets" and "Net Asset Value" under IFRS.

Net Assets Per Unit footnotes

- ¹ This information is derived from the Fund's audited annual financial statements as at December 31 of the years shown and the interim statements as at June 30, 2019.
- ² Net assets and distributions are based on the actual amount of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.
- ³ Distributions were reinvested in additional units of the Fund, unless the investor requested payment in cash.
- * This is not a reconciliation of the beginning and ending net assets per unit as the increase (decrease) from operations data is based on the weighted average number of units during the period rather than actual unit amounts at the relevant time.

Ratios and Supplemental Data footnotes

- ¹ The information is provided as at June 30, 2019 and December 31 of the years shown.
- ² The management expense ratio (MER) is calculated in accordance with National Instrument 81-106 and is based on total expenses (excluding distributions, commissions, portfolio transaction costs and forward fees as applicable) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. In a period where a series is established, the management fee ratio is annualized from the date of inception to the end of the period.

The Manager may authorize a reduction in the management fees and/or operating expense rates generally for certain investors of the Fund who pay or incur distribution or other expenses normally paid by the Fund or the Manager. In this case, if the Manager reduces or rebates a portion of the management fee, the Fund or the Manager pays an amount equal to the reduction either as a distribution or as a direct rebate. The MER does not take this type of reduction into account.

The Manager may temporarily reduce or absorb all or any portion of the management fee and/or operating expenses of the Fund and can terminate the reduction or absorption at any time. The Manager expects to continue to absorb these fees or expenses until such time as the Fund is of sufficient size to reasonably absorb all fees and expenses.
- ³ The Fund invests in shares and debt of the Tax Class Fund and does not directly incur portfolio transaction costs. The trading expense ratio represents total commissions and other portfolio transaction costs of the underlying Tax Class Fund expressed as an annualized percentage of the daily average Transactional NAV of the Tax Class Fund during the period.
- ⁴ The Fund's portfolio turnover rate is represented by its proportionate share of that of the Tax Class Fund. The Tax Class Fund's portfolio turnover rate indicates how the portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Tax Class Fund buying and selling all of the securities in its portfolio once in the course of the period. Typically, the higher a fund's portfolio turnover rate, the greater the trading costs payable by a fund. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
