

FUND SNAPSHOT – AS OF JANUARY 2020

FIERA CANADIAN BOND FUNDS*

(formerly Natixis Canadian Bond Funds)

On October 18, 2019, the sub-advisor for the funds was changed from J. Zechner Associates Inc. to Fiera Capital Corporation. Changes in the investment strategies of the funds were made because of the sub-advisor change. Portfolio allocations and performance measurement periods prior to this date are reflective of the previous investment strategy.

Series A

FUND HIGHLIGHTS

- With a focus on yield enhancement and capital preservation, the strategy aims to maximize the return per unit of risk with a low level of volatility
- Uses four potential value-added sources and employs four types of analysis (fundamental, technical, sentiment and seasonality) around a well disciplined and structured process that invests in high quality securities
- Active management approach adapts to changes in the economic, financial and political environments

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in share and unit value and reinvestment of all dividends and distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

Fiera Investments LP Class Funds are available through Fiera Investments Capital Corporation, a separate legal entity managed by Fiera Investments LP. For details on how Fiera Investments LP Class Funds are structured to facilitate distributions on a tax preferred basis, please read the prospectus.

The payment of distributions for Dividend class and the Return of Capital class should not be confused with a mutual fund's performance, rate of return or yield. If distributions paid by a mutual fund are greater than the performance of the fund, then the investment will decline. Distributions paid as a result of capital gains realized by a mutual fund and income and dividends earned by a fund are taxable in the investor's hands in the year they are paid. For Return of Capital class, the adjusted cost base will be reduced by the amount of any returns of capital. If the adjusted cost base goes below zero, then investors will have to pay capital gains tax on the amount below zero.

The Funds are offered by Fiera Investments LP.
